

## Thinking Inside The Box

Dear sir/mrs,

Thanks for your interest in our packaging!

We believe in our product. And we want you to have as much confidence in our box as we do. That's why we offer two different packages. We start off with package A to check if everything works as it should. Are you satisfied? Great, then we move on to package B.

### **Package A**

Package A consists of 130 boxes. You can choose any size and interior you want. The price per carton is the same as with an order of 8,320, allowing you to test our packaging without any extra costs.

### **Package B**

The first pallets you purchase (520 boxes) is always returnable, free of charge. Just make sure the remaining packaging is in the same condition as it was delivered.
