# WHAT WE DO

## Safe & sustainable plant packaging for e-commerce

### ECO-FRIENDLY

Our boxes are super eco-friendly. We used a minimum of cardboard, trimmed down the weight and put in a system that allows you make maximum use of the space inside. Good news: our boxes are made of recycled materials. Even better news: they are in turn 100 % recyclable as well. All of our boxes are FSC-certified.

### MAKING IMPACT TOGETHER

We make a positive climate contribution through our sustainable forestry projects. For every 10.000 boxes we make, we plant 77 trees. And we take over those trees for 30 years too. Well, not us personally to be honest, but Land Life Company. This way we turn deserts into forests, regenerating biodiversity in the area.

# ASSORTMENT

## 3 types of boxes for all your plants

### MODULAR FOLDING BOXES

Designed to suit your needs, these boxes allow you to send many different plants to your customers. Our patented Click system makes adding different inserts a breeze. Just click and pack, no hassle.

### SQUARE TUBE BOX

The tube box is assembled in one swift move and can be used as blister packaging. Since this box has integrated fixing points, you don't need any additional inserts to safely pack your plant. Unpacking is also a breeze: using the pull-strip, customers can easily extract their green goods from the box.

### TABLE BOXES

These boxes are perfectly suited for quickly packing multiple plants. Fitting points are placed every 3 cm, giving you the possibility to pack plants in many different combinations. Just click your insert in the box and tape it shut with our paper tape. That's plastic free packing!

# MODULAR FOLDING BOXES

## How it works

Fold the insert and place it in the box.  
Place the plant in the insert.

Click the taps on the sides of the box to  
the inside in the insert.

How to pack small plants

# MODULAR FOLDING BOXES

## Overview

### EACH PLANT TYPE IN A BOX

Using our 30x30 surface and our patented click system you can easily pack different plant types in a single outer stock.

### MAKE SETS PACKABLE

Looking to easily and quickly ship sets of plants? Use our inserts to get the job done. Just slide the plants in an insert and click them in the box. Safe and sound, no hassle.

### MAKE THE MOST OUT OF YOUR ORDER

Our modular systems allow you to place your boxes on the bottom of your folding. This gives you enough room to ship ceramics or other added value along with your existing order.

# SQUARE TUBE BOXES

## Overview

### DESIGNED FOR BULK

Shipping multiple orders consisting of the same plant? Because of its efficient design, the tube box is perfectly suited to handle large orders.

### FRAGILE ITEMS? NO PROBLEM

Use our protective wrapping paper to protect your plants and small pots during transport. Especially efficient when using one of our large tube-box models.

### TREAT YOUR CUSTOMERS

Our boxes are also easy and safe for your customers to unpack. Since they open from the bottom, chance for damage while unpack while unpacking is minimized.

# TABLE BOXES

## Overview

### ENDLESS COMBINATIONS

The patented pressure points along the length of the box allows the use of many different inserts. Many shipping combination of plants or ceramics are possible.

### COMPACT SETS

The larger boxes have a circumference of 30 x 30 cm, and the smaller boxes a circumference of 30 x 15 cm. With this smaller version you can easily place a set of 4, 3, 2 or 1 plants.

### SAFE AND SOUND

Packing fragile items such as pots is no problem. Use our different inserts along with our protective wrapping paper to ensure a safe journey.
